**Tells How Ziron Iron Tonic Helped His Daughter After Operation for Appendicitis.**

**A**FTER any serious illness, the first thing you notice when you begin to get around is your lack of strength and energy—a tired, weak feeling.

The sooner you get your strength back the better. The thing to do is to eat plenty of good, nourishing food, get all the fresh air you can, exercise conservatively, and take Ziron Iron Tonic three times a day.

Your doctor will tell you this is sound advice, and urge you to follow it.

Read this letter from Mr. J. B. Kelly, vice-president of the First National Bank, Graceville, Fla.: "My daughter had been in bad health since last April. She was operated on for appendicitis. She has been taking Ziron for two weeks. Her appetite is better than it has been. Her nerves are better, and she says she feels better. I know that Ziron is good for weak and feeble people."

Ziron is a scientific, reconstructive tonic, prepared from valuable strength-building ingredients, for weak people with thin blood. Druggists sell Ziron on a money-back guarantee. Try it.

## DO YOU KNOW WHAT IS THE MATTER?

When You Feel Out of Sorts and See Things With a Dull Eye

### LOOK TO YOUR BLOOD

Pale Complexions, Languid Feelings, Lowered Vitality, Need More Red Blood. Take Pepto-Mangan.

So many people spend week after week feeling down and out. They never stop to think that something really is the matter. They satisfy themselves by saying, "Oh, I'm not, sick. I'll be all right tomorrow."

And tomorrow comes again and again. Still they feel depressed and languid, scarcely able to get around.

If you don't feel like yourself, if you are weak and pale, your blood needs strengthening.

You should know about Pepto-Mangan, that famous blood tonic. Physicians recommend it and prescribe it because it contains just the ingredients needed to make red blood.

It renews your energy, puts you where you ought to be. Begin with it today. Get the tablets if they be more convenient to take than the liquid. Both have the same medicinal properties. But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the full name, "Gude's", Pepto-Mangan, is on the package. Advertisement.

## COX'S STATEMENT TO LABOR PROVED TO BE GROSSLY INACCURATE

Claim He Had "Never Pressed a Soldier Into an Industrial Controversy" Not True.

### USED OHIO MILITIA TWICE

Question Not About Merits of Strike or Need for Military, but as to Truthfulness.

By WILLIAM HOSTER.

Columbus, O.—Governor James M. Cox's boasted labor record has been shattered by his own official act. Claiming that he had "never pressed a soldier into an industrial controversy," the record of his action as governor of Ohio in mobilizing the National Guard of this state for service in the steel strike of 1919 has been produced in flat contradiction of his assertion.

Not once, but on two occasions was the Ohio guard, at an expense of \$23,000 to the people of Ohio, called into service and sent to Akron and held in readiness for action in nearby Canton.

The question is not as to the merits of the strike or as to the necessity for the presence of the guard within striking distance of Canton, but concerns wholly the truthfulness of Governor Cox's statement, obviously made to win favor among the workmen. The facts as brought out in the speech of Republican State Chairman George H. Clark, formally opening the campaign at Columbus, are as follows:

### Ordered Guard Out Twice.

After the steel strike had progressed for some days, with more or less disorder, Governor Cox on September 28, 1919, suddenly ordered the mobilization of the guard at Akron. A period of quiet followed, and the troops were withdrawn. And then again suddenly on October 25 the guard was once more mobilized and sent to Akron, and while it lay there at that strategic point awaiting a summons into action staff officers representing Governor Cox kept close watch on the situation in Canton.

In his speech at Wheeling, W. Va., on the night of August 14 Governor Cox said:

"For six years I have been in executive authority in the great industrial state of Ohio. During all this time I have never pressed a soldier into an industrial controversy."

The question is, did Governor Cox tell the truth? Answering this question, Chairman Clark in his Columbus speech displayed to his audience a photographic copy of Special Order No. 52 issued from the Adjutant General's department of the State of Ohio, dated Columbus, October 25, 1919, which designated certain officers for immediate active service and paragraph 4 of which reads:

### Facts Presented.

"In anticipation of the development of a rioting condition at Canton, O., the Governor of Ohio has deemed it necessary to assemble a sufficient number of state troops at Akron, O., to be held in readiness to render aid to the civil authorities at Canton, O., and has so directed the Adjutant General of Ohio, who, pursuant to such order, directs Colonel Benson W. Hough to proceed without delay to Akron, O., to take command of all state troops upon arrival at Akron, O., and to hold them in readiness for duty, awaiting further orders."

The order is signed by the Adjutant General and counter-signed in these words, "By command of Governor Cox."

Did Governor Cox tell the truth to the workmen?

Supplementing this documentary proof, Mr. Clark produced photographic copies of headlines from Canton, O., newspapers of concurrent date, which read: "State troops mobilizing for duty here. All available companies are ordered out." And, "Governor orders troops for duty here. Ohio soldiers reporting to armories following trouble."

### Truth Should Be Known.

The surprising thing about it all is that Governor Cox in his Wheeling speech should have made so flat an assertion when all of the facts with regard to his mobilization of the guard were still fresh in the public mind, at least in Ohio. Of course it is not to be expected that workmen elsewhere in the United States would be familiar with the circumstances, and it was for that reason that State Chairman Clark in his speech stressed the necessity for the people all over the country to be informed that Governor Cox's assertion that he "never pressed a soldier into an industrial controversy" was absolutely at variance with the truth.

Publication of these official facts has utterly confounded the advocates of Governor Cox's election, who have been making a special plea to the workmen on the basis of his West Virginia speech. The revelations as to Mr. Cox's mobilization of the troops are being compared with the sworn statements of liquor league contributors to his gubernatorial campaign fund in refutation of his statement that "the wets have never contributed one dollar to any of my campaigns." In both cases the point is made that the issue is not as to the merit of his mobilization of the troops, on the one hand, or as to the status of the wet and dry question, on the other hand, but that the real issue is as to the degree of truth and accuracy absolutely necessary in one who seeks to be president of the United States.
